

Eyelets, weld edges & ropes

Front view

All critical text & images should be placed within the grey area. Around 50mm in from the edges.
 If you request extra ropes or eyelets, please notify your account manager when you place order.
 The actual size of eyelets is 20mm diameter.

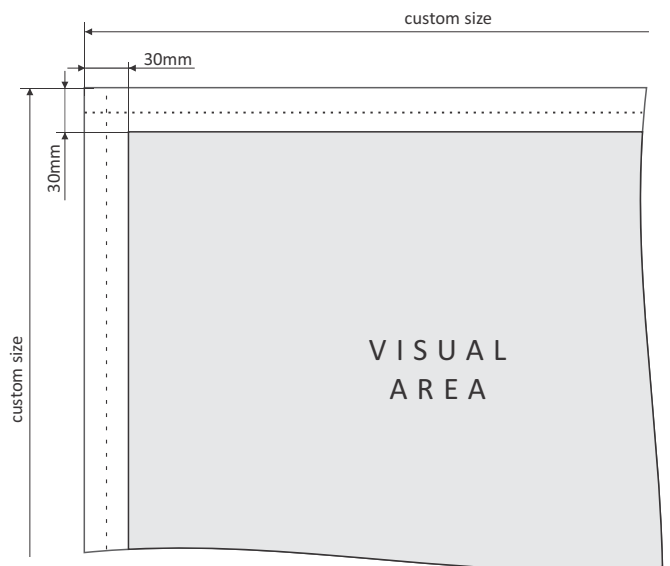

Kedar ropes

Front view

All critical text & images should be placed within the grey area. Around 30mm in from the edges.

Sew / Welded Pocket

Front view

All critical text & images should be placed within the grey area.
 Be aware of the welding / sewing line, all critical text should not be placed on it.
 Spiky recommends that the background image should continue or bleed into the non-visual area.
